FUEL INJECTOR TESTING SYSTEM

<u>RESTRICTION</u>

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-18, drawn to the structure of a fuel injector testing system, classified in class 73, subclass 119A.
- II. Claims 19-31, drawn to a method for testing a test volume for air leakage, classified in class 73, subclass 119A.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the structure of a fuel injector testing system as defined by invention I can be used to test a fuel injector system without requiring a test volume to be tested for an air leakage as defined by invention II.

Application/Control Number: 10/813,220 Page 3

Art Unit: 2855

Because these inventions are distinct for the reasons given above and the search required

for invention I is not required for invention II, restriction for examination purposes as indicated

is proper.

The Applicant is advised that the reply to this requirement to be complete must include

an election of the invention to be examined even though the requirement may be traversed (37)

CFR 1.143).

CONTACT INFORMATION

Any inquiry concerning this communication or earlier communications from the

Examiner should be directed to Eric S. McCall whose telephone number is (571) 272-2183.

The fax phone number for the organization where this application or proceeding is

assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
